(Last updated: September 22, 2020)

Professional experience

University of Amsterdam (UvA), Amsterdam, Netherlands
- Assistant Professor, joint appointment **2020–**
  - Van 't Hoff Institute for Molecular Sciences (HIMS)
  - Informatics Institute (IvI)
- Member of the UvA Computational Soft Matter Lab

Max Planck Institute for Polymer Research, Theory Group, Mainz, Germany
- Emmy Noether (independent) group leader: *Importance Sampling in Chemical Space* **2016–2019**
- Group leader: Biomolecular simulations (Arbeitskreis Prof. Kurt Kremer) **2014–2016**

University of Basel and **Novartis**, Basel, Switzerland
- Postdoctoral assistant, Physical chemistry (Prof. Markus Meuwly) **2012–2013**

Education

Carnegie Mellon University, Pittsburgh, PA USA
- Ph.D., Physics (Prof. Markus Deserno) **2008–2011**

École Polytechnique Fédérale de Lausanne (EPFL), Lausanne, Switzerland
- B.Sc., Physics **2003–2006**

Secondary appointments

Committee member of the UvA HIMS PhD Lectures **2020–**

Guest Editor for *APL Materials* Special Issue **2020**
- Discovering Patterns in Disorder: Machine Learning for Fluctuating Mesoscopic Materials
- Together with Dr. Alpha Lee (U. Cambridge) and Prof. Daan Frenkel (U. Cambridge)

Editorial Board member, *Machine Learning: Science and Technology*, IOP Publishing **2019–**

Steering-committee member of the Carl-Zeiss-Stiftung on Algorithmic Intelligence **2019–2020**

Board member of the TRR146 **2018–2020**

Deputy member representative of FAIR-DI e.V. (FAIR Data Infrastructure) **2018–**
- Pillar C: "Soft-matter and biomolecular simulations"

Deputy member representative of the Max Planck Network "BiGmax" **2017–**
- Project Area 4: "Learning thermodynamic properties of materials"

Co-Head of the TRR146 Integrated research training group (IRTG) **2017–2020**

Junior PI at Max Planck Graduate Center (graduate school MPIP/JGU Mainz) **2017–2020**

Awards

"Hochschullehrer-Nachwuchs-Workshop 2019," Marl, Germany **09/2019**
- Invitation by GDCh Makromolekulare Chemie to selected young university lecturers

"Machine Learning for Physics and the Physics of Learning," CA USA **09-12/2019**
- Invited core participant of IPAM Long Program

Examination authorization (Prüfungsberechtigung), Physics, JGU Mainz **2018**

Emmy Noether Program, Deutsche Forschungsgemeinschaft (DFG) **2016**
- Independent research group
- Equivalence to Habilitation

Astrid and Bruce McWilliams Fellowship, CMU, Pittsburgh, PA USA **2010**
- 1-year full tuition and stipend scholarship

Student Travel Award – Biophysical Society Meeting, San Francisco, CA **2010**

Guy C. Berry Graduate Research Award – Mellon College of Science, CMU **2009**

Third-party funding

Carl-Zeiss-Stiftung "Algorithmic Intelligence as Emergent Phenomenon" **2019–2023**
- One of 4 core co-PIs (Consortium: **€ 3.0M**)

- Statistical predictability of physical systems (**€ 0.2M**)

Max Planck Network BiGmax on "Big Data in Materials Science" **2018-2022**
- Automated analysis of atom force probe detector maps (**€ 0.2M**)
- Learning thermodynamic properties of materials (**€ 0.2M**)

Emmy Noether Program, Deutsche Forschungsgemeinschaft (DFG) **2016–2020**
- Independent research group (**€ 1.3M**)
- Topic: Importance Sampling in Chemical Space

TRR146 "Multiscale Modeling in Soft Matter" **2014–2022**
- A6: Dynamics in multiscale simulations (**€ 0.2M**) **2014–2022**
- B7: Machine learning in multiscale simulations (**€ 0.2M**) **2018–2022**

Teaching (courses)

Advanced computer simulation techniques, JGU Mainz **Spring 2019**
- co-taught with Dr. Giovanni Settanni and Dr. Omar Valsson

Computer simulation techniques, JGU Mainz, Mainz, Germany **Fall 2018**
- co-taught with Dr. Giovanni Settanni and Dr. Peter Virnau

Polymer physics and soft-matter theory, JGU Mainz, Mainz, Germany **Fall 2018**
- co-taught with Prof. Burkhard Dünweg and Dr. Sara Jabbari-Farouji

Advanced computer simulation techniques, JGU Mainz, Mainz, Germany **Spring 2018**
- co-taught with Dr. Denis Andrienko and Dr. Giovanni Settanni

Polymer physics and soft-matter theory, JGU Mainz, Mainz, Germany **Fall 2017**
- co-taught with Prof. Burkhard Dünweg and Dr. Sara Jabbari-Farouji

Polymer physics and soft-matter theory, JGU Mainz, Mainz, Germany **Fall 2016**
- co-taught with Prof. Burkhard Dünweg and Dr. Sara Jabbari-Farouji

Advanced computer simulation techniques, JGU Mainz, Mainz, Germany **Spring 2016**
- co-taught with Dr. Denis Andrienko and Dr. Giovanni Settanni

Electronic structure calculations, University of Basel, Basel **Fall 2012**
- co-taught with Prof. Markus Meuwly

Teaching (guest lectures)

Biomolecular simulations, UvA, Amsterdam, Netherlands **05/2020**
- Machine learning for coarse-grained simulations

Teaching (summer & winter schools)

MolSim 2020, University of Amsterdam, Netherlands **01/2020**

CECAM: "Applied mathematics and machine learning perspectives on Big Data Problems in Computational Sciences," Mainz, Germany **10/2019**

CECAM/TRR School on Machine Learning, Mainz, Germany **09/2018**

CCCS School on machine learning in atomistic simulations, Vallico Sotto, Italy **05/2017**

CCCS School on coarse-graining, Engelberg, Switzerland **03/2017**

ESPResSo++/VOTCA tutorial, Schloss Waldthausen, Mainz, Germany **10/2014**

Tutoring

CECAM/TRR School on Machine Learning, Mainz, Germany **09/2018**

CCCS School on coarse-graining, Engelberg, Switzerland **03/2017**

ESPResSo++/VOTCA tutorial, Schloss Waldthausen, Mainz, Germany **10/2014**

ESPResSo workshop, University of Stuttgart, Germany **10/2010**

Coarse-Grained Biomolecular Modeling workshop, Levi, Finland **03/2010**

Various teaching-assistant positions at both EPFL and CMU **2006–2011**

Workshop organization

CECAM: "(Machine) learning how to coarse-grain" virtual event **09/2020**
- 220+ registered participants

CECAM: "Applied mathematics and machine learning perspectives on Big Data Problems in Computational Sciences," Mainz, Germany **10/2019**

Mainz Materials Simulation Days 2019, Mainz, Germany **06/2019**

International workshop for MaxNet on Big Data in Materials Science, Dresden, Germany **04/2019**

CECAM/TRR School on Machine Learning, Mainz, Germany (60 participants) **09/2018**

CECAM: "New frontiers in particle-based multiscale modeling," Mainz (60 participants) **09/2018**

Mainz Materials Simulation Days 2015, Mainz, Germany (100+ participants) **06/2015**

ESPResSo++/VOTCA tutorial, Schloss Waldthausen, Mainz, Germany **10/2014**

Invited talks

Department of Chemistry, Boston University, Boston, USA virtual	**10/2020**
CECAM Multiscale simulations of soft matter virtual	**09/2020**
Frontiers of Molecular Engineering 2020 Conference, Seattle, USA postponed	**09/2020**
MUST2020 NCCR Conference, Grindelwald, Switzerland postponed	**09/2020**
CECAM "Non-covalent interactions in large molecules," Lausanne, Switzerland postponed	**09/2020**
PASC20 Conference, Geneva, Switzerland postponed	**07/2020**
AI4Science Colloquium Series, University of Amsterdam, Amsterdam virtual	**06/2020**
CECAM "Open Databases Integration for Materials Design" virtual	**06/2020**
Conference on A FAIR Data Infrastructure for Materials Genomics virtual • Recording online	**06/2020**
SIAM Conference "Mathematical Aspects of Materials Science," Bilbao, Spain postponed	**05/2020**
Erice school "Free-energy landscapes," Erice, Italy postponed	**05/2020**
Pompeu Fabra University of Barcelona, Barcelona, Spain cancelled	**04/2020**
"Dresden Polymer Discussions," Meißen, Germany postponed	**03/2020**
CompBioMed "Machine learning meets modelling and simulation methods" virtual • Recording online	**03/2020**
PCoMS Seminar Series, Tohoku University, Sendai, Japan	**02/2020**
Department of Chemical Engineering, Kyoto University, Kyoto, Japan	**02/2020**
CANES Seminar Series, King's College London, London, United Kingdom	**02/2020**
Physics@Veldhoven, Veldhoven, Netherlands	**01/2020**
University of Marburg, Marburg, Germany	**11/2019**
E-CAM "Building a molecular foundry" virtual	**11/2019**
Leibniz Institute for Interactive Materials, Aachen, Germany	**11/2019**
IPAM "Machine Learning for Physics and the Physics of Learning," UCLA, USA • Recording online	**10/2019**
CECAM "Beyond machine learning for quantum chemistry," Bremen, Germany	**10/2019**
"Hochschullehrer-Nachwuchs-Workshop 2019," Marl, Germany	**09/2019**
IPAM "Machine Learning for Physics and the Physics of Learning," UCLA, USA • Recording online	**09/2019**
American Chemical Society (ACS) Fall Meeting 2019, San Diego, CA USA	**08/2019**
XXXI IUPAP Conference on Computational Physics (CCP2019), Hong Kong	**07/2019**
"Advances in methods for multi-scale modelling," Leiden, Netherlands	**06/2019**
"MolKin2019 Sampling, Design and Machine Learning," Berlin, Germany	**06/2019**
IPAM "Many-Particle Systems with Machine Learning," Lake Arrowhead, USA	**06/2019**
German Physical Society (DPG) meeting, Regensburg	**03/2019**
American Physical Society (APS) meeting, Boston, USA	**03/2019**
"Machine Learning and Reverse engineering for Soft Materials," Leiden, Netherlands	**12/2018**
"Integrating Molecular Simulation with Machine Learning," Leiden, Netherlands	**10/2018**
Max Planck Institute for Iron Research, Düsseldorf, Germany	**08/2018**
"Modern Approaches to Coupling Scales In Materials Simulations," Lenggries, Germany	**07/2018**
IPAM "Many-Particle Systems with Machine Learning," Lake Arrowhead, USA	**06/2018**
Computational Chemistry Days, **Keynote lecture**, Helsinki, Finland	**05/2018**
Theoretical Computational Chemistry Workshop, Engelberg, Switzerland	**05/2018**
SimTech Conference, Stuttgart, Germany	**03/2018**
German Physical Society (DPG) meeting, Cross-sectional symposium, Berlin, Germany	**03/2018**
Department of Applied Mathematics, TU Eindhoven, Eindhoven, The Netherlands	**02/2018**
Department of Chemistry, Ruhr University of Bochum, Bochum, Germany	**01/2018**
German Chemical Society (GDCh), Satellite Meeting, Berlin, Germany	**09/2017**
Symposium on Theoretical Chemistry (STC), University of Basel, Basel, Switzerland	**08/2017**
Department of Physical Chemistry, University of Münster, Münster, Germany	**07/2017**
Department of Physical Chemistry, University of Göttingen, Göttingen, Germany	**06/2017**
IPAM "Many-Particle Systems with Machine Learning,", UCLA, USA	**11/2016**

Department of Chemistry, Free University of Brussels, Brussels, Belgium	**04/2016**
Department of Chemistry, University of Konstanz, Konstanz, Germany	**04/2016**
"Transferability Issues in Multiscale Modelings," Mainz, Germany	**12/2015**
Department of Chemistry, Freie Universität Berlin, Berlin, Germany	**11/2015**
CCCS Symposium on Machine Learning, Basel, Switzerland	**11/2015**
Statistical Physics and Low Dimensional Systems, Pont-à-Mousson, France	**05/2015**
"Modeling Many-Body Interactions 2015," Lake Garda, Italy	**05/2015**
CSP Workshop, University of Georgia, Athens GA USA	**03/2015**
Faculty of Natural Sciences, University of Groningen, Groningen, The Netherlands	**06/2015**
Mainz Materials Simulations Day (MMSD 2013), Mainz, Germany	**06/2013**
Department of Chemistry, Penn State, State College, PA, USA	**05/2013**
Laboratoire de Biochimie Théorique, CNRS, Paris VII, France	**01/2013**
Forschungszentrum Jülich, Jülich, Germany	**11/2012**
Max Planck Institute for Polymer Research, Mainz, Germany	**11/2012**
Department of Biochemistry, University of Zürich, Switzerland	**12/2010**
Forschungszentrum Jülich, Jülich, Germany	**11/2010**
Max Planck Institute for Colloids and Interfaces, Potsdam, Germany	**07/2010**
INSERM, Paris, France	**06/2010**
Max Planck Institute for Polymer Research, Mainz, Germany	**07/2009**
Forschungszentrum Jülich, Jülich, Germany	**07/2009**

Supervision

University of Amsterdam, Amsterdam, Netherlands

- Bernadette Mohr, Ph.D. student — **2019–**

Max Planck Institute for Polymer Research, Theory Group, Mainz, Germany

- Yasemin Bozkurt Varolgüneş, Exchange Ph.D. student — **2018–2019**
- Martin Girard, Postdoc, **Humboldt fellowship** — **2018–**
- René Scheid, Master student — **2018–2019**
- Timon Wittenstein, Bachelor student — **2018–2019**
- Clemens Rauer, Postdoc — **2018–2019**
- Arghya Dutta, Postdoc — **2018–**
- Marc Stieffenhofer, Ph.D. student, **MPGC fellowship** — **2018–**
- Christian Hoffmann, Diplom student — **2018–2019**
- Bernadette Mohr, Diplom student — **2018–2019**
- Alessia Centi, Postdoc — **2017–2019**
- Kiran Kanekal, Ph.D. student, **MPGC fellowship** — **2016–2020**
- Roberto Menichetti, Postdoc — **2016–2018**
- Svenja Wörner, Ph.D. student — **2016–2020**
- Marius Bause, Ph.D. student, **MAINZ fellowship** — **2016–2020**
- Joseph F. Rudzinski, Postdoc, **Humboldt fellowship**, now Group leader — **2015–2019**
- Chan Liu, Ph.D. student — **2014–2019**

Doctoral defense committees

Yasemin Bozkurt Varolgüneş, Koç University, Istanbul, Turkey	**05/2020**
Chan Liu, Max Planck Institute for Polymer Research, Mainz, Germany	**10/2019**
